Through the "Youth for Understanding" program, Kari Priha, a GC-B foreign exchange student came from Inkeroinen, Finland, on August 2, 1973, to spend one year with the Lawrence Davis family and our school.

Kari left his parents, Ravno and Raili Priha and his three brothers behind in Finland. At GC-B Kari took American Government, physics, German II, European authors, history of the English Language, and writer's workshop.

Kari's most memorable event of farm life was the time he chased an old rooster. When "he went over the cement I followed; but when he went over the deep soup of manure, I still tried to follow and that's the mistake I will always remember!"

Having Kari at GC-B this year has been a learning experience for the students, the teachers, and Kari especially. During his stay, Kari gained a fresh insight into America and its citizens.

GCB Students

This year marked the second year that GCB seniors have participated in the Pre-Careers Program. The program, with centers at Pocahontas and Humboldt, seeks to provide high school students with first-hand knowledge and experience in a field of their choice. GCB seniors are selected for the program on the basis of interest; those most interested and most willing to benefit by the experience are chosen to participate. Humboldt was the center frequented by this year's seniors, and they took such courses as small engine mechanics, nurses' aide, and public service. An outline of the engine mechanics course includes engine theory and design, engine systems, engine overhaul procedures, engine maintenance and storage, occupations and industrial opportunities, and related products. Nurses' aide included an introduction to the health field, health occupations, and fundamentals (clinical experience). Those in public service were introduced to oral and written communications, basic record-keeping, psychology of human relations, techniques of decision-making, land and government, working with community organizations and groups, and occupations. The general consensus of opinion of the program was quite favorable.

Swing Show Streaks to Success!

The 1974 Swing Show streaked to a success, based upon popular songs of the 60's and 70's. The Jr. High Chorus presented excerpts from the Beatles to start the show. Surprise of the evening was when two guests flashed on and off the stage so quickly that they were never introduced during the girls glee performance. STEP IN TIME, a choreography done by Shelly Junkman and Mary Stamper, showed fine talent and imagination, captivating the audience with its charm. Another highlight was the mixed chorus with a dance routine starring four "Modern Millies". Miss Athlens on the piano, guitarist Gerry Shimon, and guest drummer Bill Wisselink, from ICCS did a fantastic job accompanying songs. The evening proved that GCB has a great deal of talent in the music department.

Remedial Reading

1 OUT OF 5

This year, the G.C.B. Elementary became one out of five schools in the state to adopt PLAN (Program for Learning in Accordance with Needs). PLAN, developed by the Westinghouse Learning Corporation, is a program which offers each learner a truly individualized education in reading, language arts, mathematics, science, and social studies which can be adapted to each pupil's needs, abilities, interests and goals. The major components of the program are instructional objectives, study plans to achieve these objectives, and a computer support system which helps teachers plan learning and monitor progress.

I Remember . . .

Quietly gathering cobwebs in the attic
Memories trace a pattern in the dust--
An intangible recollection
Of fragments of lost moments,
Now left in disarray,
Strings of mental pictures,
Now entangled in the web,
Frozen likenesses of faces,
Now fading but enduring,
And strains of voices
Now silent, suspended in the hall . . .
All fall with the leaves of a new year,
A new pattern is woven,
While remembering, I sigh--
Whispering breath into a memory,
Finding it hard to put
An end to what is past.
